## Installation accessories

### Plastic tacker for pipe fasteners

- 
- 1 Comfortable work thanks to optimal height of the device.
  - 2 Light and durable plastic construction.
  - 3 Device tested in practice.
  - 4 Universal design allows for mounting of short and long fasteners.
  - 5 Improved guide and a special ballasting element guarantee adequate input of the fastener into the slot of the device. Thus the tacker does not jam during operation and provides a quick and safe installation.
  - 6 With space for your logo.
